Start now and build your music library and collection. What is Tubidy? Tubidy is a platform where you can find and convert the song or music video that you like for free. Then, you can easily listen to or download the converted file to your devices. After that, you can enjoy it offline. Many people have difficulties to have the song that they like from many music platforms. The main reason is that you have to pay for it. But no worries! With Tubidy, you can find the song you like, then download it for free. Start your favorite song collection now. This platform has it all. Songs from all singers in the world, from many different genres, and many different languages. Moreover, the latest songs that are currently in high demand by many listeners. Tubidy has it in their collection. Not only that but also some podcast or even song or video from your local music platform. You can easily copy the link, then paste that link to the search bar on the app. The converted file will be ready in a few minutes, then you can download it for free to your device. Recommendation: Mp3 Juice Download Mp3 Snaptik Mp3Quack Mp3Juices Descargar Mp3 Features in Tubidy As a video conversion to MP3 site, Tubidy is widely used by music lovers around the world. This platform is easily used on any device. Such as desktop computers, laptops, tablets, smartphones, and even old phones. Then all your music downloads can be stored directly on your devices. Moreover, you can stream many podcasts or videos with this platform. From many sources around the world, in many languages. There are some features in this platform that can be used for user convenience. That way the user can easily find the song they like and download it without any difficulties. The features are as follows: 1. Search Bar Located on the main page of this platform, you can easily use this search bar to search for the song that you like. Just type the title of the song, or the singer, then press "Search." Tubidy will find it for you. Then you can download the song if you like. If you like to convert videos from other sources, just paste the URL link to the search bar. Then this app will convert the video to the format of your choice. Then you can download it to your device. The good thing about the search bar is that it will give you a list of options for the song you try to find. Some songs have the same title, even though it is a different song sung by a different singer or band. You can choose the one you are searching for from this list. If you still did not find the song, try to put additional information in the search bar. Such as the song title and the name of the singer or the band. The list of options will change for you to find. 2. Top Video and Podcast Tubidy has this feature to help you search any song or music clip currently in high demand on any music platform, such as YouTube. Moreover, it can find various trending music by typing a specific keyword into the search bar. Even streaming for podcasts. Not only on YouTube but many music sources on other platforms. Such as SoundCloud, Facebook, TikTok, and many more. Even from the local source in your country, with your local language. Try to copy the URL link of the clip you like from that other platform. So, you can use the copied link to paste to Tubidy's search bar. That way you can convert and download it later on. 3. Language Option For your convenience, Tubidy provides you with a language option. That way, you can change the basic setting in English to your chosen language. Then you can use the platform more easily. There are many language alternatives you can choose. 4. Listen Without Download Sometimes you just want to listen without downloading the song. Tubidy can provide for that too. You can listen to any kind of song you like, just type the song title in the search box. Then choose the one you want from the list of options given. Then choose the Play button to listen. But this means that you listen to the song online. If you like the song then you want to download it, just click the Download button. Then you can enjoy that song offline anytime you want. Even if you just want to listen to it without downloading, you can find any song you like from the collection. Type the song title into the search bar and enjoy listening to it. There is no limit on how many songs you want to listen to. So, you can listen to as many songs as you like. 5. Convert Music Video to MP3 Tubidy is easy to use. Including how to convert the music video you watched on other music platforms into MP3 files. Just follow these easy steps below: Find your favorite music video on a music platform such as YouTube. Copy the URL Link. Go to Tubidy and enter the main page. Where you will find the search box. Paste the URL Link you copied on the search box. Then click "Search". Choose the video you want from the list of options that resulted from the search. If you want to download it, choose the download button. You will be directed to the download page. There are options formats to choose from. The format can be MP3 as an audio file or MP4 as a video file. Then choose the size of the file you like. MP3 file sizes are from 64kbps up to 320kbps. Wait until the conversion process is finished. Then you can download the file. When the download is finished, you can enjoy the video you like on your device. Why Using Tubidy? There are many advantageous reasons why you choose to use Tubidy for converting music videos and downloading the song you like. Here is the list of the good reasons why: 1. Free of Charge This is the best feature ever! You can hear, and download your song, and even your favorite music video, free of charge. You can build your music library without spending a dime. Compares to other platformss for which you have to pay for a certain amount of download, this app will give it to you for free. Isn't that the best? No matter how many times or how many files you downloaded from this app, you will always get it for free. Tubidy will not ask you for any kind of payment to enjoy your music. 2. Easy to Use The most convenient way of Tubidy is the easy way to use it. Find the song, convert a video, then download it to your device. Just follow the easy step-by-step order, then you can have your song. You just type the title of the song into the search bar. Or in case you want to convert a video from another platform, you can easily copy the URL link of that video and then paste it to the search bar. This app will give you alternatives for the type and size of the file, then after it is finished the converted file can be easily downloaded to your device. You don't need to have any technical ability to do something this easy. Just putting the information in the search bar will get you the song that you are looking for. 3. Unlimited Download In Tubidy, you can download any kind of song or music video without limit. So, you can start building your music library right away. There is no limit to how many files you can download per day. Either for MP3 or MP4 of your choice. Most websites will give you a limit for a certain number of free downloads. But after that, you will have to pay. But with this app, you can download as many songs or videos as you like without any limitations. This is the fastest way for you to build your music library or playlist on your device and enjoy it offline. With the vast amount of collection this app has, you will never be short on choices. You can download as many as you like, just beware of the capacity that the device can handle. Better check your spare space on the device you use. That way you will know exactly how many songs you can download from the app. If the memory space on your phone is limited, you can choose to keep them on the memory card. 4. High-Speed Download and Conversion You will find that converting video or music files is so easy with Tubidy. This platform has a high-speed process for converting your video. The same speed is applied to the download process. The process only takes a few minutes to finish. The size of the file is depending on the choice you make. But even if it is a high-quality video, the size of the file is not that big. That makes the conversion process and also the download time will not take more than just a few minutes. 5. 100% Safe and Secure Connection You don't have to worry about migrating viruses or malicious software to your device because Tubidy guarantees all the files will be 100% safe and secure. The connection is also stable and will not have any disturbance. Also, this platform is safe from cybercriminals. Then you don't have to worry about a security breach. 6. Support Different Formats Whether you want to listen to the song in MP3 formats or watch the music video in MP4 formats, Tubidy can provide them all. For MP3 formats: 320 kbps, 256 kbps, 192 kbps, 128 kbps, and 64 kbps. MP4 formats: 1080p, 720p, 480p, 360p, 240p, and 144p. No matter what kind of format you choose, the quality will still be the best. It is all depending on the space capacity of your device. But rest assured, any file will have good quality, no matter what format you choose. 7. Suitable for Many Devices This Tubidy platform is also suitable for any kind of device. You can use this platform on your computers, tablets, laptops, smartphones, and even from an old phone. The file is concise and quite small so it will not too heavy even for an old phone. Usually, an old phone has limited ability or capacity to take a big file. You can choose the smaller size file to make it easier. Don't worry about the quality, even with the smaller size, the quality will still be good to enjoy. Some old phones can play smaller size video music. If that is the case, you can convert the music video you like to the smallest MP4 format, such as 144p. Don't worry about the quality, it will still be good for you to enjoy. 8. No Pop-Ups Unlike any other free platform, in Tubidy there are no commercial pop-ups. So, when you use this app, you will not get distracted by pop-ups. And you can smoothly download any song you like. Usually, the pop-ups will make the user stop for a second to watch them or skip them. And that can slow the process. But in this app, you will not find any pop-ups, so every step will go smoothly and fast. You can finish the whole process in just a few minutes, without any disturbance. 9. Huge Collections of Song, Video, and Podcasts While using this website you will realize that the song collection Tubidy has is huge. Over a million songs in MP3 format are available for any user. The songs have different genres, instrumental or vocals, even in different languages. Completed with videos and podcasts, from different sources and languages around the world. You can stream or download any file that you like. The source of the video or song or podcast can come from any place you like. All you need to do is just copy the URL link, then paste them to the search bar on the app. Then convert them to any format you like. The result will be for you to enjoy, in any format that you choose. What to Prepare for Downloading from Tubidy? First of all, you will need a device. It can be a desktop or laptop computer, or a tablet. If you want the mobile version, you can use a smartphone or an old phone. The other things you need to prepare are: You need to have access to the internet. The more stable the better. That way you will finish downloading any file from the app without delay. Choose a browser. This app can be accessed from any commonly used browser. Whether it is Google, Firefox, or any other browser of your choice. Prepare enough storage space to keep all the files you have downloaded from Tubidy. Remember that this app does not limit your quota. You can convert and download as many files as you like. Now it will be your ability to provide enough space to keep them all in your collection. The files of converted videos or songs are usually small enough to make them easy to download. But if you want to make some kind of music library or a playlist, then you need to prepare enough space on your device. You can direct the downloaded file to the SD Card of your device. Because usually, it has more storage space than the internal memory of the device. That way you can have more songs or videos to download without worrying about the storage space. If you use any Apple devices and you want to save the songs to your iPhone gadget. Then you will need a computer that has an iTunes program installed. How to Download Music and Video from Tubidy? First and foremost, download this website from Google Play. The name is Tubidy app music. This will make it easier for you to download your song anytime and anywhere. Now that you know the best platform of youtube downloader, it's time to build your music and video library. 1. How to Download on Android Devices This website can be used for many kinds of Android devices. Whether a tablet, smartphone, and even an old phone. Here is the step by step for you on how to download your MP3 music to your Android devices: Type the song title on the search box. If the song title you typed has a similar title to other songs, the website will give you some alternatives to songs with the same title. To make it easier, also type the singer's name along with the song title. It will make the search easier. After you find the exact song you want, click the song name. Continue by clicking the Download button. Tubidy will give you the choice of formats. The choice will be MP3 or MP4. Choose the one you want. Choose the size of the file you want. The choices will be from 64 kbps up to 320 kbps for MP3 and 144p up to 1080p for MP4. Wait until the conversion is finished. Now the finished file is ready for you to download to your device. 2. How to Download on iOS Devices As mentioned previously, if you use an Apple device such as an iPhone, then you will need a computer that has an iTunes program installed. You can get the app from the iTunes platform. You have to know that iTunes will do a sync. So, delete all songs on your phone that are not on iTunes. Make sure that the software is up-to-date and set up correctly. To connect your iPhone to the PC, you can use a USB cable. When you open iTunes, you can see the iPhone icon in the upper left corner. Click on it. Run the software, then you can see how much space you still have left on your device. To get the song, click the link. Open your browser and go to the Tubidy website. You can follow the steps mentioned above to get the song you like. Until it is all done. After that, look at the Summary tab on iTunes. This option can be seen on the left panel. Then, click the "Apply" button. Tap the back arrow and you can see the library section on the left pane. Continue to choose option "Songs". As soon as you download the songs from Tubidy, put them in the library. You can see the list there when the download is done. 3. How to Download to PC or Laptop As mentioned earlier, Tubidy can also be accessed from any PC and laptop. You just need to go to the website and start from there. The steps will be the same as what you need to do when you download to your Android devices. The difference is you save the downloaded file to a folder you prepared on your computer. Whether to a music folder or any folder or drive of your choice. Then if you want to transfer it to your smartphone, you can use a USB Cable to connect. Tubidy MP3 Download Review This is a website where you can download any kind of video and soundtrack. You may use the internet version from your desktop computers or laptops. But to make it even easier, you can download the app to your mobile device. 1. The Free App Just go to Google Playstore and find Tubidy App Music. Then download the app to your mobile device. That way you can extract audio such as from an online video and then converts the file to a different format of your choice. 2. Many Sources of Music For many music videos that you like from YouTube, for instance, just copy the URL link of that video. Then paste that link to the search box on the app. Choose the format you want, such as MP3 or MP4. In a minute, the app will convert that video to the file you've chosen. You can also get or download content from radio stations. Because this website is also equipped with an integrated video player. 3. Free of Charge Service The best thing is this website is free of charge. Moreover, there is no limit to how many songs or videos you can download. That way, you can build your music or video library with the collection of your choice without spending a dime. Tubidy will not ask you for any kind of payment. No matter how many songs you converted and downloaded. This app is completely free. 4. Huge Collection of Music The huge collection of music in this website also gives you a lot of different options. There are many kinds of music genres you can choose. Even with different languages other than English. So, if you want to find any country-specific song or video, it will not be a problem with this app. The most popular lately are Korean songs from many singers and groups. Or even from Thailand and Japan. If the title is in their languages, just type the name of the singer or the band. Then choose from the list of options given. No problem! Who knows, while listening to the songs in the list of options, you will find another song that you like. It will give you more songs to convert and download. 5. No Pop-Ups One other thing that is also important is there is no commercial pop-up. So, users can enjoy the song and download it without distraction from any pop-up that sometimes can be annoying. Not to mention that sometime you will be accidentally directed to another page. Good thing that there are no pop-ups in Tubidy. So, the process is smoothly done without any distractions. Frequently Asked Questions (FAQ) Here is the list of some questions related to the Tubidy website. These questions come from many different sources and this is a concise list of them: 1. Which Browser Can be Used to Access Tubidy? You can use all common web browsers. Such as Google Chrome, Opera, Mozilla Firefox, Safari, and Microsoft Edge. All these browsers may be used to access the Tubidy website and download any MP3 and MP4 from their collection. 2. What

Languages are Available in the Tubidy Song Collection? Due to the vast collection of songs in the websites, you can find many countries' specific songs in their native languages. Such as Vietnamese, Tagalog (Philippines), Spanish, Russian, Portuguese, Polish, Korean, Thai (Thailand), Kazakh, Japanese, Italian, Hindi (India), Hebrew, Greek, German, French, English, Dutch, Czech, Cornish (Southwestern Brittonic language), Chinese (Mandarin and Cantonese), and Arabic. You can type the title name in your native language on the search box. Or the name of the singer in English. Choose the one you search for from the list presented to you for alternatives if you're not sure. You even can listen to it first. If that is the right song you're looking for, you can download it right away. 3. Is All the Song Free to Download? Yes, every song and music video is free to listen to and download. But, only for non-commercial use. Please do not use the song or video you get from Tubidy for commercial purposes of any kind. There is a copyright issue and any other legalities to think about. 4. What Kind of Genre is in the App? The vast collection consists of many types and genres. Moreover, some with country-specific songs and instruments. Here is an example of some of them: Genres: pop, jazz, rock, rap, ballads, country, and many more. Instrumental: piano, saxophone, violin, synthesizer, guitar, electronic, and any other instruments. Group: acapella, band, boy band, girl band, choir, and a lot more. Country-specific: native language with their native instruments. Classic: Beethoven, Bach, Mozart, and many others. Find out more by searching with the search box. There are music videos and podcasts from different countries that you probably enjoy as well. Remember that Tubidy has millions of songs, so the genres will be a lot as well. 5. Does Tubidy Provide Lyrics? When the song is not instrumental, usually lyrics are made available for you to sing along to. Even though most of the lyric is in the English language. But some popular songs are also available in their native language. 6. What If I Cannot Find the Song by Title? Sometimes many songs have the same title. That is why the search result always gives you a list of songs to choose from. Additional information is also written there. Such as the name of the singer, or the album name. If you are not sure which is the one you want, put some additional information in the search box. For example: type the name of the song with the singer's name. Or the singer's name and the band's name. You can also add the year of the album if you can remember. Putting more information in the search box will give a lot of help. The search engine can find the song or music video you are searching for more quickly. Even if you are still in doubt about the list of the song provided, you can try to listen to it. There is no limit to how many songs you listen to or download. So, there is no harm in listening to each one until you find the one you searching for. 7. Why Can't I Save the File on the Apple Device? Without using an additional website, saving files on any Apple device is not possible. But you can install a browser app to help, such as Documents by Readdle. You can download the Tubidy files to your device with this browser. The alternative solution is using your Cloud account to save the file. Then you can stream those files from there. We gave you step-by-step on how to download it on iOS. Please follow those steps so you can save the downloaded file to your device. 8. Is It Possible to Upload My Music to MP3Juice? No, you can't upload any files to MP3Juice. If you want your music to be included in the Tubidy or MP3Juice search, upload your music on another musical platform first. Such as YouTube.com or soundcloud.com. Or to any supported download source. When you are done uploading your music on one of the platforms, your music should be listed in the Tubidy or MP3Juice search by the next time you search. Many people upload their music through other platforms such as TikTok, Facebook, Instagram, and other alternatives. Try to do the same, then you can find it in this app later on. 9. Why am I Getting No Results for the Search Query? There are two options to solve this problem. The first one is to activate at least 1 (one) download source. You can do this by looking under the search bar. There is a "manage sources" button for you to click so you can manage it. Just in case you still get no result, then try to clear or delete your browser cache. After that, restart your browser. Then continue to refresh the page. Now you can start your search again. Be sure to regularly clear your browser cache, you can even set the time to automatically clear it. That way it will not hinder you in surfing the internet or downloading any files from Tubidy. 10. Why Can't I Enable/Disable a Download Source? To solve this problem, try to clear your browser cache. Then, restart your browser and refresh the page. If this solution is still not working, send an email using the contact form provided on the website. 11. There Is an Error Message and No File When I Click Download Please go to Tubidy by their contact form and send the error code shown on the error page. The website will try to fix the error. This app will try to fix the error by using the code you provided. That way, the app will know exactly what went wrong. So, please provide the error code in the contact form you send us. You can send the email to: But please write to us in the English language. It will be easier and faster for us to reply in English other than in other languages. 12. How to Stop Receiving Push Notifications from MP3Juice? Please unsubscribe first. It should stop the push notifications. 13. Where Can I Download the Tubidy App? You can download the Tubidy app music from Google Playstore. It is free and suitable for desktop and laptop computers, tablets, and mobile devices. Such as smartphones and old phones. There are two more sources for downloading the app, as listed below: Another source is the APK version Tubidy MP3 music downloader. This is where you can find the easiest way to download MP3 or MP4 songs, and any video or podcast online via Tubidy Downloader. Last but not least is Tubidy's Official Chrome Extension. Here is a free extension for you to find not just music and torrents, but also movies, e-books, software, and many more. You can use this app to find e-books or movies, or anything else you like. 14. Should I Register? For using Tubidy, you don't need to register. You can use it freely and easily without the need to register. Unlike many other platforms that require you to make a registration, Tubidy will not force you to do that. We understand your concern regarding your data. But for your convenience, you can download the app to your mobile device. That way, you can use the app anytime or anywhere you need to. 15. Can I Share the Music? Yes, you can share the music you have downloaded from Tubidy. Whether to your social media accounts or your friends. Just remember that these songs are for personal use only. Not for commercial purposes. So, as long as you share them for your enjoyment, then that's fine. Take care not to use it for commercial purposes. Once again, there is a matter of copyright issues and legalities related to them. 16. Do I Need an Internet Connection to Listen to the Song I've Downloaded? No, you can listen to your favorite song offline after you download the song or any music video from Tubidy. You just need the internet connection to find the song then convert them with the app, then download it to your device. After that, you don't need an internet connection anymore. You don't need to connect to Tubidy after the song is safe on your device. Just like the song collection you have so far. The app only helps you to find the song, convert it, and provide you with the file to download. Its job is done after that. 17. Is Downloading from Tubidy Illegal? The fact is, any source that converts videos from YouTube or other sources free and in real-time, is too good to be legal. Because converting any video violates the copyrights. Thus, it can be considered illegal. But since the downloaded videos and songs are used for personal enjoyment only, then it can be perceived as a legal platform. That is why it is prohibited to use the files for commercial use. Since it has been developed by Ryan Watson, this website helps users in finding the music they like. Ryan designed Tubidy as a productivity app. And this app helps android users to find the information they need.
